When you stop and really consider it, isn't that a childish excuse—Bymbye I'll take out some Fire Insurance.

Yes!—and before you finish adding those several "Bymbyes" a Fire (which never says "Bymbye") comes along and wipes out all traces of what was a Home.

Why don't you

## LAKEVIEW NO. 2 GUSHER IS DUE

Local holders of stock in Lakeview No. 2 Oil Co. should have word of something important one way or the other within a few days. According to the following from the San Francisco Examiner of July 26, the well in question should be finished by today. If it proves as copious a flowing one as the No. 2 well of the Pentland company, which the Lakeview No. 2 company recently brought in under contract for the Pentland people, it means a revenue of \$30,000 to \$40,000 a month for the Lakeview No. 2 stockholders.

The Lakeview No. 2 Oil Company has decided to change the standard tools in the No. 1 well, to a rotary outfit at a depth of 3,550 feet. This well is the old one and is located on section 4, 11-23. At present the hole is down 2,950 feet with 6-inch casing and is expected to be finished within the next two weeks.

This well was started by the old Pentland Union Oil Company, which was abandoned about two years ago when the bottom water was struck, as at that time no methods were available that would shut out the underground stream which flows through this territory with a great speed.

## CONSOLIDATED OIL ORDERS ASSESSMENT

A cablegram has been received from the Honolulu Consolidated Oil Company of San Francisco to the effect that, at a recent meeting of the directors of the company, the stock was assessed ten cents (10c) per share, which will become delinquent September 20th. The sale date of all delinquent stock will be October 11th.

Mount Mitchell is the most lofty mountain in the eastern part of the United States. It is situated in Yancey county, North Carolina, and according to the United States Geological survey, is 6,711 feet above sea level. There are two other mountains in the Appalachian system above six thousand feet—Mount Guyot, in Tennessee, 6,636 feet, and Mount Washington, in New Hampshire, 6,293 feet.

R. J. Bush, a harness maker of Stroudsburg, Pa., threw the end of a waxed piece of string which was attached to a five-hundred-yard ball of yarn out the window. A robin picked it up, took it to a nearby tree and started to build a nest. When Mr. Bush looked for the yarn he saw that there were only a few yards left, and, looking into the tree, saw the nest that had been made by the robin.

Surgeons in a Washington hospital are marveling at the remarkable vitality of Edward H. Elwood, who has lived 36 hours with what has been diagnosed as a broken neck.

## JAPANESE TRIES TO END OWN LIFE

Haunted by the constant fear that he would end his days as a result of tuberculosis, and admitting that he was a sufferer from asthma, K. Takei, a Japanese, sought the solitude of a little way station at Moanalua on the line of the Oahu Railway at midnight last night and fired a shot into the fleshy portion of his neck.

Paawilo, an Hawaiian, employed at the Damon estate, while making his early morning rounds, discovered the apparently lifeless body of the Japanese, and immediately summoned police assistance.

The injured man was hurried to the hospital where it is said that he stands a fair chance of recovery.

The weapon was fully loaded and but the one shot had been fired. In a statement offered by the Japanese he further claimed that he had hoped for financial assistance from friends residing at Ala.

## New Fables In Slang

A Tired Business Man who spends most of his day with his feet cooked up on the Office Desk and with the Electric Fan battling Home Runs on to the back of his neck complained bitterly to his Molly Lou.  
"Business is like a Mango that a Fruit Fly has Stung. The Heat Indicator has Sky Rocketed to the top of the Pole and I think I shall go to the Coast."

But Molly Lou was a wise Little Person with an Idea. She Batted a stray Anopholes for a Three-Bagger as she cooled the Fevered Brow of the Tired Business Man with a Wind Producer.

"Why," she snered, "should we go to the Coast. Let us Hover around the Home Plate. I was reading about the Hostelry at the Promotion Committee's Wonder of the World. Let us go there?"

When they got back there was a Live Business Man and a Molly Lou with Roses in her Cheeks. The Genius Homo now boosts for the Local Product and Molly Lou hatched her idea for she has a new summer Dress.
